About us in a few words...

We proudly present our collection of carefully crafted products. Our fish pillows are made entirely from antiallergenic synthetic materials. The outer layer compromises of a delicate fabric while the inside material is a polyester used in pillow production. The unrivaled graphics were created by a graduate of the Cracow Fine Arts Academy. All our products are hand sewn.

The species featured in our collection are fish many of us have seen and can now enjoy their subtle, colorful and natural beauty. We all have a chance to admire and finally keep our favorite fish!

The European Sturgeon, *Acipenser Sturio,* length 120cm, **GP-175709**
The Monster European Sturgeon, *Acipenser Sturio,* length 200cm, **GP-175389**
